Cross-Disciplinary Research Areas

Community Information Systems & Rural Media Environments

- Information flows in hybrid media contexts across rural, remote, and post-industrial communities in Upper Great Lakes
- Critical information needs and digital inequality in changing local news landscapes
- Place-based identity effects on engagement with information from news and non-news actors

Consumer Communication & Brand Authenticity

- Consumer perceptions of brand authenticity, genuineness, and trustworthiness
- Influence of social media advertising and influencer marketing on purchase behavior
- Corporate social responsibility communication during crisis contexts

Research Methods

- Mixed qualitative-computational design (sequential and convergent approaches)
- Community-driven ethnography and in-depth interviews
- Computational content analysis with constructed datasets using digital trace data, and historical/archival sources
- Machine learning applications in content analysis using transformer ensembles and BERT topic modeling
- Geographic visualization techniques for spatial analysis of information and media ecosystems

Publications

Since 2020, I have **produced 13 publications**, including **9 peer-reviewed journal articles** (2 first-authored), **2 first-authored book chapters**, and **2 peer-reviewed conference publications**.
